

## **Complete Symptom Resolution in Positive Coronavirus Patient**

*Dr. Anish Bajaj (March 2020)*

A 25-year-old female patient who was a very active restaurant worker, started experiencing flu-like symptoms on March 15<sup>th</sup>, 2020. The patient had lost her sense of smell and taste. She was tested on the 24<sup>th</sup> for COVID-19 and was confirmed positive on the 27<sup>th</sup>. Her primary care doctor gave her Tylenol with codeine for her fever and body aches. She was experiencing difficulty and painful breathing, headache, dry cough, congestion, and difficulty speaking. Everything was labored. By the 30<sup>th</sup>, the Tylenol and Codeine helped the fever subside. However, there was no improvement in body aches, breathing, cough, and congestion.

The patient started taking Silver Flower (three capsules, three times daily) and Golden Flower (one teaspoon, two times daily) from Wei Labs. Within two days, her body aches had improved by 50%. By the third morning, she started to expel chest congestion and after day three, the patient's body aches/pains and congestion were almost completely gone. All symptoms were resolved by day six however, the patient is finishing their two-week course of Silver Flower and will continue taking Golden Flower for further support.
